

# *Wedding Cinematography*

*A picture may be worth 1,000 words, but a video tells your story.*

*Duprey Video Productions  
Waterloo, New York*

# *Welcome!*

*Let's get to know each other while we answer your questions. We'll show you a complete video of an actual wedding rather than a compilation of shots from various weddings. Weddings are unique by design which is why it is important that we understand what is important to you. The following packages represent various services and price points based on our experiences with over 250 weddings. There is some room for flexibility within the packages that we can discuss after meeting with you and understanding your requirements.*

*Videography packages are a necessary element for every couple to study and compare. The terminology is all the same: "Professional equipment," "Photo montage," "Highlights" etc., but the finished products are not. The essential thing to consider is the experience, passion and creativity of the artist you entrust to capture and preserve your wedding experience.*
